Virginia Wineworks announces the release of the state's first Bag in the Box wine

Virginia Wineworks, located in Charlottesville, Virginia, is now packaging its Wineworks brand in easy to use, recyclable three-liter boxes. This new and efficient method of packaging is environmentally friendly, eliminating the large and frequent truckloads needed to transport bottles. The three-liter, airtight bag holds the equivalent to four bottles of wine, and prevents spoilage for at least four weeks. Our Bag-N-Box wines will be retailing for only 30 to 35 dollars, and is available through J.W. Sieg Wines (434) 244-5300 or at Virginia Wineworks (434) 296-3438. For more information visit virginiawineworks.com.
